

Celebrating Michigan Businesses who are dedicated to building a People First Economy.

Good For Michigan is helping companies across the state create a better business future. We're building a more profitable and resilient place-based economy by working with small businesses, global companies, business associations, and state and global economic development agencies, to measure and improve social and environmental impacts.

Take the first step in becoming Good For Michigan

Companies that track their social, environmental, and economic impacts are 63% more likely to survive a recession. They also have greater revenue growth and higher employee satisfaction. Moreover, these businesses enter their community in a deeper way, by showing a level of dedication to the future wellbeing of their communities.

Good For Michigan is a program of People First Economy

2024 Good For Michigan Awards

Out of the hundreds of businesses that participate in Good For Michigan each year, these businesses are making the most positive impact. Read more about the program and our 2024 awardees at peoplefirsteconomy.org.
